RATIONALE

The idea behind this initiative was borne out of the purchase of numerous expensive fabrics for parties and ceremonies, the clothes made out of these fabrics are rarely used with some worn once or twice in years and may never be worn again.

Whereas there are thousands of people praying to God for one of such fabric to wear for the naming ceremony of their newborn.

Instead of giving it out to them outrightly, we can sell at a giveaway rate to them while the money generated is used to take a child off the street.

OUR REQUEST.

We implore you to join the TRHI cause and donate items still in good condition but no longer in use to us. Through your donation, we hope to take over 150 teens off the street in 5 years.
